

# Concealed Thru-Roof Assemblies

IPC's concealed thru-roof assembly is ideal for new constructions or applications where installation will be concealed. The 240 assembly includes everything necessary for this type of installation. The neoprene washer on top will help assure that a watertight installation is provided.

Additional stem lengths are available upon request.

**#240 - Bronze Concealed Base Assembly.** Assembly includes a 3/8" x 15" stem, neoprene washer, nailing bracket and cable connector. Wt. 1.02 lb. ea. ★

**#A240 - Aluminum Concealed Base Assembly.** Same as above except stem is 1/2" x 15". Wt. .50 lb. ea. ★

**#240B - Bronze Concealed Base Assembly.** Same as above description with 3/8" x 18" stem. Wt. 1.16 lb. ea. ★

**#A240B - Aluminum Concealed Base Assembly.** Same as above except stem is 1/2" x 18". Wt. .40 lb. ea. ★

**#240X - Bronze Heavy Duty Concealed Base Assembly.** Same as #240 description with a 1/2" x 15" stem. Wt. 1.14 lb. ea. ★

**#240D - Bronze Heavy Duty Concealed Base Assembly.** Same as above with 1/2" x 18" stem. Wt. 1.36 lb. ea. ★

**Notes:** Air Terminals are purchased separately. Air terminals are fully nickel plated.

# Flat Mounted Bases

**#60U - Universal Mounting Base.** IPC's newest product can be used for vertical or horizontal mounting. Base is threaded for 3/8" inside threads. Made of bronze material for pastedown or fastening with screws or hammer drives. Wt. .80 lb. ea. ★

**#60UB - Universal Mounting Base.** Same as above for 1/2" inside threads. Wt. .80 lb. ea. ★

**#A60UB - Universal Mounting Base** made of aluminum material for 1/2" inside. Wt. .28 lb. ea. ★

**#60 - Bronze Flat Surface Point Base,** with 3/8" inside and 5/8" outside threads with clamp type cable fastener. Wt. .64 lb. ea. ★

**#A60 - Aluminum Base** with 5/8" outside threads only. Wt. .22 lb. ea. ★

**#60A - Bronze Flat Surface Point Base** with 5/8" outside and 3/8" inside threads with 5/16" lead anchor and screw. The base requires only one anchor for fastening. Wt. .68 lb. ea. ★

**#A60A - Same as above only in aluminum.** Wt. .28 lb. ea. ★

**#60B - Bronze Flat Surface Point Base** with 1/2" inside thread with clamp type cable fastener. Wt. .64 lb. ea. ★

**#A60B - Same as above only in aluminum.** Wt. .22 lb. ea. ★

**#60SS - Bronze Base** for Standing Seam Metal Roof. Cable can be run parallel or perpendicular to seam. No penetration of roofing seam required. Threads on base are 5/8" outside and 3/8" inside. Base is for standing seams up to 3/4" in width. Wt. .93 lb. ea. ★

**#A60SS - Same as above only in aluminum.** Wt. .28 lb. ea. ★

★ Denotes normally stocked item available for shipment within 48 hours. Items not stocked are available within 14 days.
